# MOSQUITO YARDSHIELD™ ATTACHMENT KIT

**Take Back the Outdoors!** The most effective and cost efficient insect abatement system is now available. The ECHO Mosquito YardShield™ Attachment Kit is a backpack tank and a specially-designed nozzle that works with the ECHO PB-200 or PB-201 blower. Together they expel an insect abatement agent, which kills mosquitoes and other insects on contact, creating a protective barrier. Simply connect the Attachment to the blower, mix the Mosquito YardShield Concentrate with water in the backpack tank and...Take Back the Outdoors!
